

**DISPLAY GRID CHANNEL**

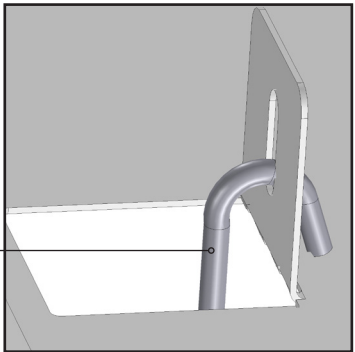

Display grid channel with bendable hook-flaps/punched holes for the cables. Can be used as a suspension channel for example pendants without exposing the power cables.

Material: Powder coated steel sheet. Std colour. RAL9010, others colours on request. Profile dimension of channel W140xH80 mm.

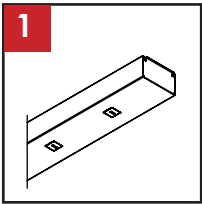

**DISPLAY HOOK GRID CHANNEL**  
Example showing how a light fixture can be suspended.

**BENDABLE FLAPS**  
The pre-punched flaps are easily bent inwards and an S-hook is then inserted from which the lamp is suspended.

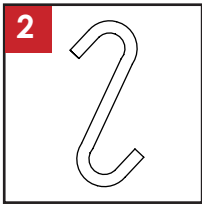

**COMBINATION EXAMPLES:**

**DISPLAY GRID CHANNEL KIT**
