

## HOOK SECONDARY CHANNEL

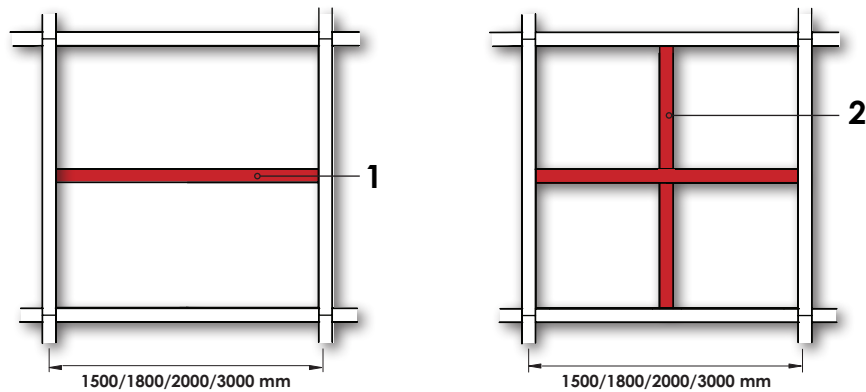

Hook Secondary Channels is a hook-on channel to be suspended onto the grid by hanging between two edges of the Fixpoint open grid ceiling square.

Useful when you need an extra grid profile to suspend signs or for example fixing a wall support clamp anywhere in the grid square. This gives the user a very flexible way of using the grid for multiple suspension purposes.

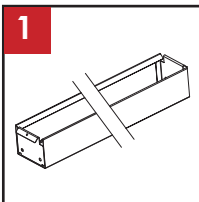

We recommend that you secure the Hook Secondary Channel by fixing it on the edges with self-tapping screws if using it for more than just its aesthetic value.

Material: Powder coated steel sheet. Colour: White RAL 9010. Others on request.

Available in different lengths and widths. Standard sizes as below:

### FULL LENGTH CHANNEL

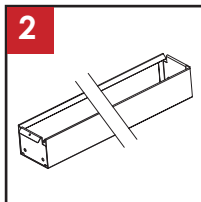

04-067 L 1900 MM

04-067-18 L 1700 MM

04-067-15 L 1400 MM

### HALF LENGTH CHANNEL

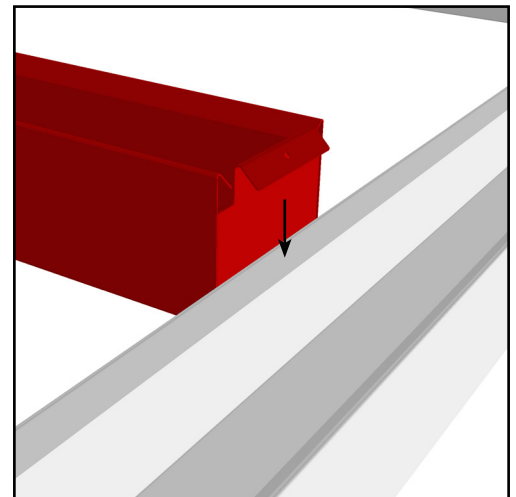

04-067-A L 900 MM

04-067-18-A L 800 MM

04-067-15-A L 650 MM

### EASY SUSPENDED ON THE EDGE OF A GRID CHANNEL
